PROFILE

Mid-level Fullstack Developer with 2 years of experience in developing scalable web applications, primarily working with React, TypeScript, and Node.js. Solid experience in front-end and back-end integration, building dashboards, data-driven applications, and using real-time interactive maps. Acts as a technical reference for the team, supporting architectural decisions and ensuring clean, performant, and maintainable code.

PROFESSIONAL EXPERIENCE

BUSCALOG | JUN 2024 — NOW

Fullstack Web Developer

- Development and maintenance of a production vehicle tracking application using React, TypeScript, Bun, and React Leaflet.
  Implementation of interactive maps with real-time data, improving the visualization and usability of the monitoring system.
- Acted as the front-end technical lead, organizing tasks, supporting architectural decisions, and assisting other developers.
  Integration with back-end APIs in Laravel/PHP, performing validations, adjustments, and improvements to data flow.
- Applied development best practices, ensuring scalable, readable, and easily maintainable code.
